Rural Settlements and Society in Anglo-Saxon England ...

The rural settlements were created under a variation of the French seigneurial system of landlords and tenants, under which the latter, who came to be called habitants, had considerable autonomy because land was plentiful and because they could supplement their livelihood with work in the fur trade or in the burgeoning forestry industry after 1800. These dispersed rural settlements, which existed during and after the period of French control, were limited to the banks of the St. Lawrence ...

Rural settlements and society in Anglo-Saxon England (Book ...

The rural settlement reached its peak in the years between 1880 and 1912, when major structures in the community included the railroad depot, a post office, a lumber mill, two general stores, two churches, and a school. By the turn of the twentieth century, Lyles Station had fifty-five homes, with a population of more than 800 people.

Lyles Station, Indiana - Wikipedia

The chapter first reviews the difficulties involved in establishing settlement layout. This is followed by a discussion of how settlement forms changed during the Anglo-Saxon period from unenclosed, dispersed settlements to more nucleated forms often characterized by enclosures. The distinction between rural and urban forms is discussed as is the relationship between Late Saxon and 'medieval ...
