Science continues to Make the Modern World. Whatever names we want to give to the leading edges of change—globalization, the networked society, the knowledge economy—it's science that's understood to be their motive force. It's science that drives the economy and, more pervasively, it's science that shapes our culture.

18 Science and the Modern World - Harvard University
In Alfred North Whitehead: Career in the United States. ...earliest writing about God) as Science and the Modern World. In it he dramatically described what had long engaged his meditation; namely, the rise, triumph, and impact of "scientific materialism"—i.e., the view that nature consists of nothing else but matter in motion, or a flux of purely physical energy.

Science and the Modern World | work by Whitehead | Britannica
SCIENCE IN MODERN LIFE Science is the key to all the mysteries of the world. This world is like magic and science is like a magic wand which presents hundreds of theories in front of the man. Man would not have made any progress in the absence of science. Today, everything we know is just because of science. Science has opened a door before us.
